PERSONAL PROJECTS

Mutah IT
- A Place where you can find everything you need as an IT student at Mutah University.
- I have built and manage a team of designers, quality assurance, and developers.
- I have built it using React.js, Styled-component, and Firebase.
- It is dynamic and easy to use with headless CMS, and Google Analytics, also it is Mobile Responsive.

Bookie
- Bookie is a modern e-commerce platform designed exclusively for book lovers. It offers a diverse collection of books across various genres, creating an immersive online bookstore experience. With its sleek and contemporary design, Bookie provides a visually appealing platform for browsing and discovering captivating titles.

Reddit Clone
- A fully functional Reddit clone built with the latest technology in the web development field, allowing users to create communities, as well as create, post, and upvote content, comment on and vote on other users' content.
